Re: Technology Survey for Parishes

We have developed a technology survey for parishes. We are working on a grant program for rural parishes in the northern part of the state and in other areas of the Diocese that have limited access to internet, technology and communication resources. The grant will be funded through the Office of Family & Faith Formation. The first step in creating the program is determining what tools are currently being used by the parishes, so we can determine the criteria for the grant. Please fill out this online survey as soon as possible.
